

Vision

Vision Motor Sports was established in 1997 with the mission to revolutionize the lighting industry. Today, we are doing just that. The Engineering, Product Development and Marketing is conducted from the Vision X USA office located in Auburn, Washington. Vision X Asia is home to the Manufacturing, Testing, and Inventory Logistics departments of Vision X Global Lighting. Today, Vision X has the mission of developing partners around the World to continue developing and marketing the most advanced lighting products in the World.

The Key to Vision X's ongoing success, unmatched quality, valuing customer input, and performance is our team of world class engineers who have taken outlandish concepts from conception and put them into production. Our engineers are never afraid of re-examining products to find ways to better serve customers. Since its conception, Vision X has listened to the end user and put their ideas into action to further the quality, performance, and functionality of all Vision X products. At Vision X, we are constantly striving to live up to our company motto of "Lighting Evolved."

LED LIGHT BARS TESLA MODELL X/S

XPR SERIES

The XPR Series Light Bars utilize Iris Reflector technology that is specifically engineered to project the full light output of each LED to produce an unmatched distance spot beam.

SMOOTH BACKLIT HALO OPTION

The XPR-S is available in a halo model that can be used as a daytime running light.

LUMENS | VS | DISTANCE

XMITTER PRIME XTREME SERIES

The Xmitter Prime Xtreme Series Light bars are stacked with high output LEDs that allows each bar to produce a full spread beam that will outshine the competition.
